Objective

I'm a web developer with expertise in both front-end and back-end development. I'm passionate about creating immersive and responsive web applications, Android and IOS apps. I'm seeking a challenging role in web and app development where I can collaborate closely with designers and product managers to enhance the user experience with user-friendly and responsive interfaces.

Experience

Web Developer

ATOMSTATE TECHNOLOGIES PRIVATE LIMITED, Hyderabad, India

Feb 2023 - Present

- Developed and maintained web applications using React for the front-end and back-end frameworks like FastAPI, Node.js, and Spring.
- Collaborated closely with designers and product managers to implement user-friendly and responsive interfaces.

Full Stack Java Trainee

QSpider/JSpider, Hyderabad, India

Mar 2022 - Jan 2023

- Successfully completed an intensive full-stack Java training program, gaining expertise in Core Java, Advanced Java, SQL, MongoDB, and SQL connections using JDBC and Hibernate.
- Developed proficiency in building CRUD applications and effectively storing data using hash functions such as SHA1, SHA512, and MD5.
- Acquired valuable knowledge in creating dynamic and interactive web applications.

Internship at Parken Solution - Front-end Development

Parken Solution, India

Jan 2022 - Mar 2022

- Worked on front-end development tasks and projects.
- Contributed to front-end development projects during the internship.

Skills

Frontend: HTML, CSS, JavaScript, React
Backend: Java, Django, Python, Node.js, Spring
Databases: SQL, MongoDB, MySQL
Tools: Git, npm, Postman

Education

Bachelor of Technology (Computer Science and Engineering)

Teegala Krishna Reddy Engineering College, Hyderabad, India

2018-2022

Intermediate

Daroga Prasad Rai College Siwan (BSEB), Bihar, India

2016-2017

SSC

Mahaviri Saraswati Vidya Mandir VijayHata Siwan (CBSE), India

2014-2015

Projects

AI-Enhanced Platform

- Developed a React-based SAAS app with AI features.
- Led a team of React developers and optimized data management.

EdgeReach Platform

- Created a responsive website using HTML, CSS, and JavaScript.
- Ensured cross-browser compatibility.

IoTGraphX Platform

- Developed a React-based IoT web app.
- Designed a user-friendly interface and integrated IoT systems.

Education ERP

- Developed an ERP system for college management.
- Streamlined interactions for teachers and students.

Plagiarism Detection

- Created a plagiarism detection web app using Django.
- Designed an intuitive user interface.

FarmerSoal

- Developed an educational platform for farmers.
- Implemented technology for plant disease identification.

Employee Management System

- Designed and built an efficient employee management system.
- Implemented CRUD operations.

Online Book Management System

- Created a platform for book cataloging and management.
- Designed a user-friendly interface.

Portfolio Website

- Designed and built a user-friendly portfolio website.
- Utilized Bootstrap and SCSS for design.

Achievements

- Received accolades from senior developers and project managers for consistently delivering high-quality code and solutions.
- Successfully completed various projects on tight deadlines, showcasing strong problem-solving and time-management skills.

Extra-Curricular Activities

- Actively participated in coding competitions and hackathons, honing problem-solving abilities and staying up-to-date with industry trends.
- Contributed to open-source projects, collaborating with developers worldwide to improve coding skills and knowledge sharing.
- Continuously learning and exploring application of prompt engineering concepts, further enhancing my technical expertise and problem-solving capabilities.
